

We are delighted to introduce Akash Dhorajiwala, our 2020 Arkwright Scholar.

Monday 25th January 2021

The Arkwright Engineering Scholarships programme is the most prestigious scholarship scheme of its type in the UK with over 5,000 Scholarships awarded to date.

For a number of years, Dynex have partnered with the Arkwright engineering Scholarship programme, sponsoring engineering leaders of the future. We share our expertise and knowledge by offering support in various different ways, for example, valuable hands-on work experience, support during project work and a personal mentor who can assist with aspects of learning and career planning.

Throughout our history, we have had many

Arkwright Engineering Scholarships success and continue to do so.

Congratulations Akash on achieving this opportunity as “Arkwright Engineering Scholar” It has taken completion of a 1 year application process, inclusive of aptitude exams and testing plus virtual interviews.

Whilst we remain in unprecedented times, we are hopeful that in the near future, the team here at Dynex Semiconductor Ltd will be able to welcome Akash to our Lincoln site, when he will meet some of our Engineers and hopefully with support from his assigned mentor, undertake as much work experience as he can.
