

REGISTRATION, EVALUATION AND AUTHORISATION OF CHEMICALS (REACH) AND SUBSTANCES OF VERY HIGH CONCERN (SVHCs)

Within the REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), Dynex is considered mainly as a downstream user.

As an article manufacturer of semiconductor products Dynex Semiconductor Ltd is fully aware of the special requirements for control of Substances of Very High Concern (SVHCs), as published on the Candidate List, last updated 04th February 2026.

Therefore, we make you aware that some of our IGBT products contain 'Lead', in a higher concentration than 0.1% w/w per article; however, semiconductors are not intended to release any substance under normal and reasonably foreseeable conditions of use.

Dynex confirms that all discrete Bipolar products are fully compliant with the REACH requirements.

If you have any further questions or comments regarding REACH or SVHCs, or any other enquiry please contact our customer service team on Lincoln 01522 502753 / 502901, Email powersolutions@dynexsemi.com.
