

REGISTRATION, EVALUATION AND AUTHORISATION OF CHEMICALS (REACH) AND SUBSTANCES OF VERY HIGH CONCERN (SVHCs)

Within the REACH regulations Dynex is considered mainly as a downstream user.

As an article manufacturer Dynex Semiconductor Ltd is fully aware of the special requirements for control of Substances of Very High Concern (SVHCs), as published on the Candidate List.

Therefore we make you aware that some of our IGBT products contain 'Lead', in a higher concentration than 0.1% w/w per article; however, semiconductors are not intended to release any substance under normal and reasonably foreseeable conditions of use.

If you have any further questions or comments regarding REACH or SVHCs, or any other enquiry please contact our customer service team on Lincoln 01522 502753 / 502901, E Mail powersolutions@dynexsemi.com.
